

## 5 Ideas

- Bloon TD6
- JoJo's Stand Wiki
- **Pokemon Gen 9 Runthrough complete guide**
- How to not drop the bacon on the floor

Who- towards people who need help or want to know more about pokemon generation 9

What- pokemon generation 9 video Games

Why- to help people who are not experience at the game get better and learn new skills

How- it will show all of the details about the games and lots of different strategies to use in battle and general game skills

### Statement of intent

I intend to make a website that helps people who are interested in the games but not that good or are stuck. I also intend to help people who are interested in professional battling increase their rating/skill. The type of things on the web page will be run throughs, facts about the pokemon, how to master basic things and teach what to do after you beat the main story.

My website will include full guides, run throughs, the entire pokedex, gimmicks, battling strategies and suggestions on how to play because some people might need help on a specific part of the game/section or want to improve their understanding of the game franchise.

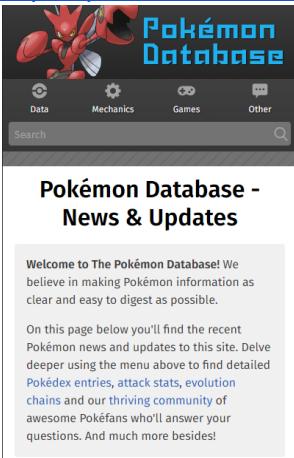

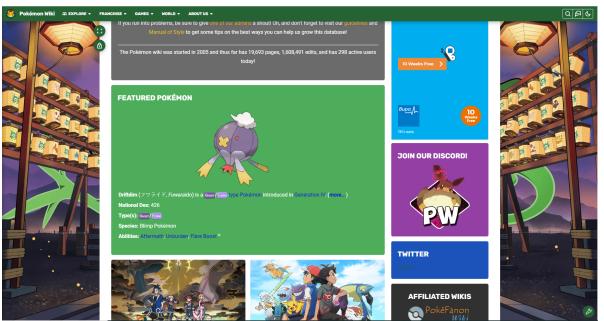

From visiting my website people will increase their knowledge of the game/games so they can play with little to no issue and then have a more enjoyable time when playing the games. It will be a web page where people can go to learn more.

### User Persona

**Children:** some children who are either confused and stuck a specific section/situation in the game would come or children who want to start getting into the games could visit the site to learn and increase their understanding of the games

**Adult/Parent:** Adults who are interested in the series and want to gain more knowledge on this generation. Parents who want to know what their children are into what they like and everything
